## PROJECTS

**Netflix Clone** [🔗](#) | ReactJS, Tailwind, Firebase

**NOV 2024**

- A completely responsive Netflix-inspired web application on React.js
- Implemented dynamic movie/TV show carousels with smooth scrolling, powered by TMDB API data fetching
- React Router has been applied very flawlessly for switching between pages such as Home, Login, and Player.
- Integrated Firebase for user authentication (login and signup functionality).
- [Project Live](#)

**Youtube UI Clone** [🔗](#) | ReactJS, Tailwind, Youtube V3 API

**NOV 2024**

- A fully responsive YouTube-inspired web application, designed using React.js.
- Implemented dynamic video grids, and category filters that had data fetched from APIs, such as the YouTube Data API v3.
- Used React Router for routing from Home to Video player smoothly.
- [Project Live](#)

**Disney Interface** [🔗](#) | ReactJS, Tailwind, TMDB API

**OCT 2024**

- Developed a responsive web application inspired by Disney+ Hotstar with React.js.
- Used TMDB API to sort the movies by their category.
- Styled the website with Tailwind CSS for a clean and modern look.
- [Project Live](#)
